Introduction and Summary of FY2005 Statistics

The 2004-2005 edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, and other measures, including staff. Each section is arranged by size code, then alphabetically by city. The totals and percentiles for each size code grouping are given immediately following the alphabetical listings. Totals for all reporting libraries are given at the end of each section.

There are 533 libraries included in this publication; 10 did not report. The *Table of Cities and Size Codes* lists the libraries alphabetically and gives their size codes. The table allows a user of this publication to locate information about a specific library.

The following table lists the size code designations, the population range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population of the 533 libraries is 2,207,300. Population data is used to determine per capita figures used throughout the publication.

Size	Population Range	Number	Total Population
A	Less than 500	134	44,054
B	500-999	138	102,998
C	1,000-2,499	134	209,050
D	2,500-4,999	45	162,707
E	5,000-9,999	43	296,048
F	10,000-24,999	14	194,880
G	25,000-49,999	10	285,987
H	More than 50,000	10	852,368
I	County library	3	59,208

Library size codes are based on the jurisdiction population of the city, i.e. the population of the city which the library was established to serve. Population figures are from the 2000 U.S. Census or special census.

Public library statistics are used at the local, regional, state, and national levels to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs. Each of the 50 states collects information according to guidelines established by the Federal State Cooperative System for public library data (FSCS). The information contained in the Iowa Public Library Statistics is based on definitions approved by FSCS.

FSCS also provides state-by-state rankings for public libraries. According to the most recent data, Iowa public libraries rank as follows in comparison with other states:

Income-29	Visits-16	Reference Questions-40
Books/Serials-15	Circulation-12	ILL/Borrowed-20
State Aid to Libraries-29		

The following table compares FY2004 and FY2005 data for Iowa libraries.

Category	FY2004	FY2005	% increase
Total Income	88,704,248	94,977,993	7.1
Governmental Income	75,151,445	79,477,378	5.8
Total Expenditures	77,252,019	82,041,841	6.2
Collections	13,258,972	13,480,917	1.7
Visits	15,332,145	16,164,704	5.4
Circulation	26,418,999	27,379,143	3.6

The data elements and definitions used to collect the information included in the Iowa Public Library Statistics are included in the *Public Library General Information Survey* section at the end of the document.

Income

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Income section includes funding received from both government and non-government sources during FY2005. Library per capita income from the city is included. (The per capita income is figured by taking the library's income from the city and dividing it by the population of the city.) The library's total income per capita is also included.

Iowa Public Library Statistics, 2004-2005

Expenditures

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Expenditures section includes spending for library operations in various categories such as salaries and other staff costs, books and other materials, and other expenditures, such as supplies and plant operations. The amount spent per capita is also listed.

Circulation

The listings which follow are in alphabetical order by size code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Circulation section lists the number of times various types of library materials were checked out to library customers. The number of circulations per capita is also listed, as is interlibrary loan activity: the number of items loaned to other libraries (ILL Provided) and borrowed from other libraries (ILL Received)
